

Polyco Healthline Ltd is committed to minimising the impacts of its activities on the Environment through the policy framework below:

Our policy is:

- to ensure compliance with all current, relevant environmental legislation and other requirements.
- to maintain our registration to BS EN ISO 14001:2015.
- to monitor and measure the environmental impacts of the Polyco Healthline Ltd's activities, products and services.
- to identify opportunities to reduce any possible environmental impact of the business activities.
- to ensure the efficient use of energy, water and other natural resources within the business.
- to take all reasonable steps to prevent pollution at local and a wider environmental level.
- to minimise waste and employ sound waste management and recycling practices both internally and amongst suppliers.
- to encourage suppliers to develop good environmental practices.
- to develop emergency procedures to deal with any significant environmental hazard that may arise from the activities within the business.
- to maintain a training programme that ensures:
  - » this policy is understood, implemented and maintained at all levels within the company.
  - » the objectives of the business are supported

To ensure the effectiveness of this policy and to evaluate the continual improvement of environmental performance; objectives and targets shall be established, measured and reviewed.

This policy will be made available to all interested parties.
