Finite[®]

Orange Grip Nitrile Glove

Thicker than a standard
disposable glove

Finite Orange Grip Nitrile Powder Free Disposable Glove

GL201

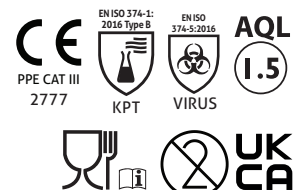

GL201 glove is thicker than a standard disposable glove. It features a diamond grip pattern over the entire glove which ensures an exceptional grip. Suited for a wide array of applications due to the heavier weight. Free of latex proteins making the glove ideal for latex allergy sufferers.

- Achieves type B chemical resistance according to EN ISO 374-1, for protection against at least 3 different chemicals
- Superior strength nitrile formulation provides good resistance to tears and punctures
- Features a diamond grip pattern over the entire glove
- Reduced risk of dust contamination
- No latex proteins - eliminates protein sensitisation
- AQL 1.5
- Fingertip Thickness: 0.3 mm
- Palm Thickness: 0.26 mm
- Typical Weight: 8.5 g

Colour

Packing

S-M: 100 gloves per dispenser
L-XL: 90 gloves per dispenser
10 dispensers per case

Sizes S-XL

 Finite®

Black Nitrile Glove

For superb protection against water, oils, and chemicals

Finite Black Nitrile Powder Free Disposable Glove

GL100

GL100 gloves provide superb protection against water, oils, and chemicals. With a diamond pattern across the entire hand, these heavy duty disposable gloves offer an enhanced grip effective for handling tools in diverse applications.

- Conforms with the requirements of EN ISO 374-5, for protection against bacteria & fungi
- No latex proteins - eliminates protein sensitisation
- Features a diamond grip pattern over the entire glove, ensures an exceptional grip
- Nitrile technology provides an exceptionally soft and pliable material
- Latex Free reducing the risk of hypersensitivity and allergic reactions
- Rolled cuff for additional strength; easier donning and prevention of liquid roll back
- AQL 1.5
- Fingertip Thickness: 0.2 mm
- Palm Thickness: 0.17 mm
- Typical Weight: 6.5 g

Colour

Packing

100 gloves per dispenser
10 dispensers per case

Size S-XL

Bodyguards Black Nitrile Powder Free Disposable Glove

GL896

GL896 heavier-weight disposable gloves offer durability and reliable protection. Providing outstanding dexterity and tactile sensitivity, making them highly versatile. With approval for a broad spectrum of applications, including the demanding environments of the automotive and engineering sectors.

- Superior strength nitrile formulation provides good resistance to tears and punctures
- Achieves type B chemical resistance according to EN ISO 374-1, for protection against at least 3 different chemicals
- Synthetic rubber offers better puncture and abrasion resistance than natural rubber or vinyl
- Nitrile technology provides an exceptionally soft and pliable material
- Textured fingertips provide an improved grip and optimise surface performance in both wet and dry conditions
- Fingertip Thickness: 0.14 mm
- Palm Thickness: 0.12 mm
- Typical Weight: 6 g

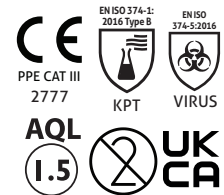

Colour

Packing

100 gloves per dispenser
10 dispensers per case

Size S-XL

Bodyguards Blue Nitrile Powder Free Examination Glove

GL890

GL890 blue nitrile powder free gloves are mid-weight gloves. The GL890 has optimized textured fingertip grip ensuring precise and confident handling of tools. The soft elastic material gives comfort, flexibility and is latex free.

- Achieves type C chemical resistance according to EN ISO 374-1, for chemical protection against at least 1 chemical
- Conforms with the requirements of EN ISO 374-5, for protection against bacteria, fungi and virus
- Textured fingertips provide an improved grip and optimise surface performance in both wet and dry conditions
- Latex Free reducing the risk of hypersensitivity and allergic reactions
- Manufactured from specially formulated nitrile butadiene polymer
- Manufactured in accordance with Personal Protective Equipment (PPE) by the European PPE Regulation (EU) 2016/425
- Fingertip Thickness: 0.11 mm
- Palm Thickness: 0.08 mm
- Typical Weight: 5g

Polyflex Eco

A range of environmental conscious gloves made in part from recycled materials

Polyco Polyflex Eco Air Ultra Lightweight PU Coated Glove

PER

Contains a minimum of 70% recycled nylon

Polyflex® Eco Air is our first glove in the Polyflex® Eco family to be made from recycled nylon, doubling down on our efforts to manufacture products from recycled sources where possible. 89% of the liner is made from recycled nylon, which equates to 70% of the total glove weight. Polyflex Eco Air is the perfect glove for handling tasks that require ultimate sensitivity and feel.

- The 18 gauge yarn ensures the glove is as dexterous as possible. The recycled nylon is specifically chosen for its strength to ensure that users are protected.
- Tactile touch screen compatible fingertips enable the wearer to use touch screen machinery or touch screen devices with precision and without the need to remove the glove
- Polyflex® Eco Air is the lightest dipped product in our range, and represents the closest 'second skin' feel whilst delivering the protection the industry requires
- Achieves Level 3 for abrasion resistance as defined by European Standard EN 388
- Packed without the use of plastic
- Primary Coating Polymer: Polyurethane
- Soft seamless knitted liner provides superior comfort for this level of protection
