# GH700 General Handling Dual Latex Thermal Glove

## Shield GH700 General Handling Dual Latex Thermal Glove

GH700

Shield GH700 is our latex, dual coated general handling glove with an acrylic terry liner offering thermal properties for cold conditions. The first layer, a full coating, offers water resistance. The second layer, a palm coating, has been designed for grip and further abrasion resistance, without effecting the dexterity of the glove. Shield GH700 offers excellent grip and warmth in a variety of challenging environments.

- Soft knitted thermal lining keeps hands exceptionally warm.
- Provides Cold Contact Level 2 performance according to EN 511
- Achieves Level 2 for Contact Heat according to EN407. Can withstand temperatures of 250°C
- Achieves cut level 2 according to EN388, for protection in medium/low risk cut hazard applications
- Elasticated at the wrist for a secure fit
- Achieves Level 2 for abrasion resistance as defined by European Standard EN388
- Strategically designed to offer ideal levels of flexibility and comfort without compromising protection

## Shield GH600 General Handling Dual Latex Glove

**GH600**

Shield GH600 is our latex, dual coated general handling glove with a sandy finish palm coating. The first layer, a full coating, offers water resistance. The second layer, a palm coating, has been designed for grip and further abrasion resistance, without effecting the dexterity of the glove. Shield GH600 offers excellent grip in a variety of challenging environments.

- Strategically designed to offer ideal levels of flexibility and comfort without compromising protection
- Elasticated knitted wrist provides a secure fit and keeps hands free from dirt and debris.
- Primary Coating Polymer: Latex
- Achieves Level 2 for abrasion resistance as defined by European Standard EN388

**Colour**

**Packing**

12 pairs per polybag  
144 pairs per case

**Size** 6-12

## Polyco Grip It Wet Dual Latex Coated Glove

**GIW**

Grip It Wet is our innovative, premium latex, dual coated general handling glove. The water resistant latex coating extends all the way through to the wrist for extra protection. Due to the soft, supple yet hard-wearing latex, Grip It Wet is incredibly dexterous and comfortable. The second palm latex coating has been designed for grip and further abrasion resistance, without affecting the dexterity of the glove. Grip It Wet is the perfect glove for many applications where water resistance is important.

- Utilises two layers of latex coating on a nylon liner to provide a water resistant surface that extends right through to the wrist
- Achieves Level 3 for abrasion resistance as defined by European Standard EN388
- Strategically designed to offer optimum levels of flexibility and comfort without compromising protection
- Achieves Level 1 for Contact Heat according to EN407. Can withstand temperatures of 100°C
- Primary Coating Polymer: Latex
- Sanitized™ glove featuring an antimicrobial treatment that provides added protection against harmful bacteria and fungi. The additive protects the gloves from microbial growth, odours and provides long lasting material protection.

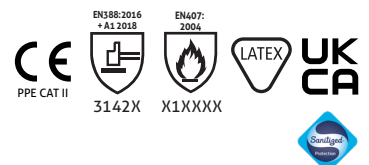

**Colour**

**Packing**

1 pair per polybag  
100 pairs per case

**Size** 7-11

## Polyflex Eco Therm Thermal Lined Sandy Latex Coated Glove

**PETH**

Polyflex Eco Therm is our premium sandy latex 3/4 coated thermal-lined glove. The sandy latex coating has been specifically developed to resist abrasion, while maintaining superior grip. Soft knitted thermal lining keeps hands warm.

- Provides cold contact level 2 performance according to EN 511.
- Achieves level 2 for contact heat according to EN 407. Withstands temperatures of 250°C
- Achieves level 2 for abrasion resistance as defined by European Standard EN 388
- Packed without the use of plastic, reducing the overall weight of packaging

**Colour**

**Packing**

6 pairs per paper band  
60 pairs per case

**Size** 7-11

## Polyco Imola Drivers Style Glove

**DR300**

Imola has a micro-foam nitrile coating and a fleece liner to keep hands warm. It is great for all general handling applications in cold weather.

- Resembles a traditional driver's glove but is significantly lighter
- Scores level 4 for abrasion resistance as defined by European Standard EN 388
- Adjustable velcro wrist strap ensures a secure fit
- Provides cold contact level 1 performance according to EN 511
- Achieves cut level B according to EN388, medium/low risk cut hazard applications

**Colour**

**Packing**

1 pair per polybag  
50 pairs per case

**Size** 7-11

## Polyco Daytona Drivers Style High Grade Leather Glove

**DR100**

Daytona is a premium drivers style glove made from a high grade leather, which is extremely hard wearing and great in the transport, logistics and utility sectors. The soft fleecy liner keeps hands extremely comfortable and warm.

- Made from premium natural grain leather which is soft; provides excellent grip
- Fleece lining keeps hands warm and comfortable in cold conditions
- Achieves Level 2 for abrasion resistance as defined by European Standard EN 388
- Provides excellent durability under intense mechanical duress

**Colour**

**Packing**
