

Dyflex® White

882WH

Seamless knitted 18 gauge glove with bio-based Dyneema® technology and polyurethane coating

Sectors:

- Automotive • Construction & Utility
- Engineering and Manufacturing • Oil and Gas • Warehousing, Transport and Logistics
- Waste Management and Local authority

Packing

- 12 pairs per polybag
- 48 pairs per case

PPE CAT II

PPE CAT II

3X42C

Features

Biobased Dyneema: The glove utilises cutting edge bio-based Dyneema yarn. All bio-based Dyneema® fibres have the exact same characteristics and performance as conventional Dyneema® fibre. Ethylene is the primary raw material used to manufacture Dyneema® fibres, and is the feedstock that will be transitioned from conventional to a renewable source via mass balancing.

18 gauge: 18 gauge seamless knitted liner is ultra-lightweight; breathable and highly flexible; ensuring ultimate comfort at all times

Thin polyurethane coating: Thin polyurethane coating in combination with the special fibre delivers great EN388 abrasion performance for extended glove life and reduced cost of ownership

Polyurethane Wet and Dry Grip : Polyurethane palm coating provides a good grip for safer handling in wet and dry conditions

White colour: The white coating and liner ensure that dirt and contaminants are easily shown.

Code	882WH
Colour	White
Sizes	6-10
